

ACADEMIC ACHIEVEMENT,
WELLBEING AND ENGAGEMENT
CULTURE AND INCLUSION

TERM TWO 2026

PRIORITIES

ENGLISH

This term in English students shall create a written and multimodal informative text for an audience. They shall also read, view and comprehend an informative text.

MATHEMATICS

Students will recall addition, subtraction and multiplication facts and solve problems using efficient strategies.
Students will study time to solve duration problems by converting units of time.

SCIENCE

This term in Science students shall investigate sources of water and the processes of the water cycle, including evaporation, condensation, precipitation, and movement across land and oceans.

HASS

This term in HASS students shall recognise the importance of laws in society, share points of view, respecting the views of others and distinguish between facts and opinions and detect points of view when examining information.

SPECIALIST LESSONS

4F - Mrs Deb Foster/Mrs Kate Crawford

Monday - HPE
Wednesday - Digital Technologies & Library Borrowing
Thursday - Science

4D- Mr Lachlan Dalgliesh

Monday - Digital Technologies & Library Borrowing
Wednesday - Science
Thursday - HPE

CURRICULUM SNAPSHOT

OUR YEAR LEVEL TEAM:

4F Deb Foster
4F Kate Crawford
4D Lachlan Dalgliesh

YEAR 4

OTHER LEARNING AREAS

Music This term, students will practise to perform their Australian songs that they composed last term. They will also reflect and respond to music that they make, view, and perform.

Digital Technologies - (Mrs Tennille Rhodes) Unit 1- What digital systems do you have? Students explore and use a range of digital systems, including peripheral devices, and create a digital solution (an interactive guessing game) using visual programming language. They identify and explore a range of digital systems and their use to meet needs at home, in school and in the local community, and use a range of peripheral devices to transmit data defining simple problems and identifying needs. Students describe, follow and apply a sequence of steps and decisions (algorithms) in non-digital contexts to explain how their solutions and information systems, such as learning software, meet their needs.

HPE (Miss Aggie Dalton)

This semester in HPE students will be focusing on the topic of identity. Students will identify the influences that strengthen identities as they grow older and develop a greater understanding of themselves and others. Through game play and real-world experiences, students will explore and describe self-regulation strategies to manage responses to physical, social and emotional changes and transitions.
